Profile

Senior Software Engineer with more than 10 years of experience in designing and delivering scalable and high performance web applications.

Strong background in building end to end solutions by leveraging modern JavaScript frameworks, backend APIs and cloud infrastructure.

Proven ability to translate business needs into reliable, maintainable systems while working closely with product, design and operations teams.

Proficient in API integrations, automating processes, optimizing performance and leading projects from architecture to production.

Professional Experience

Senior Software Engineer | inoxoft

09/2022 – 11/2025

- Built and scaled full stack applications using React, Angular, Svelte (frontend) and Node.js, NestJS, Django (backend), supporting 100k+ monthly users with sub 200ms API response times.
- Improved search accuracy and content relevance by 30%+ using PostgreSQL, Elasticsearch, NLP and LLM based text analysis.
- Designed Docker based microservices deployed on AWS, achieving 99.9% uptime while reducing infrastructure costs by 20% through efficient resource utilization.
- Implemented CI/CD pipelines with GitHub Actions, Jest and Cypress, cutting release cycles from days to under 1 hour and reducing production bugs by 30%.
- Led cross functional collaboration, conducted code reviews and introduced best practices that resolved overall code maintainability and onboarding speed.

Software Engineer | AllianceTek

08/2018 – 11/2021

- Built responsive, high performance applications using React, Next.js, Vue.js, Nuxt.js, Node.js, Laravel, supporting enterprise and startup clients across fintech, healthcare, and ecommerce.
- Developed REST and GraphQL APIs handling thousands of concurrent requests, optimizing backend performance with Redis caching and database indexing.
- Contributed to SaaS platforms serving regulated industries, implementing secure authentication, audit logging and data protection standards.
- Mentored junior developers, assisted with complex debugging and promoted clean coding practices, improving team velocity and reducing rework.

Software Engineer | 10Com Web Development

05/2016 – 05/2018

- Developed and maintained scalable web applications with React, Bootstrap and Tailwind CSS, integrated with C#/.NET (ASP.NET Core) backend services.
- Designed and consumed REST APIs, implemented database logic using MySQL and PostgreSQL and ensured efficient data flow and system performance.
- Improved application reliability, accessibility and cross browser compatibility while achieving 20–40% faster page load times.

Education

Bachelor's Degree on Computer Science,
Sam Houston State University

2008 – 2012
Huntsville, Texas, United States

Skills

Frontend — Javascript, TypeScript, React, Next, Vue, Nuxt, Angular, Svelte, Sveltekit, React Native

Backend — Node, Express, Nest, PHP, Laravel, Python, Django, FastAPI, C#, .Net

Database — MySQL, PostgreSQL, MongoDB, Redis, Firebase, Supabase

Cloud & Devops — Git, Docker, GCP, Jira, Kubernetes, Cypress, AWS, Azure
